

Why LED Lighting?

Expense	Lower electric bills	Less frequent lamp replacement purchases	Less frequent maintenance staff or vendor expenses
Energy	Lower wattage needed to operate	Less air conditioning needed to cool space	Less drain on non-renewable energy sources
Environment	No mercury = no environmental impact of a hazardous chemical	Less landfill waste	Reduces global warming
Safety	No mercury = no need for bio-hazard cleanup in case of spill	Lower risk of staff injury from using ladders and/or scaffolding	Less risk of injury from breakage or burns
Convenience	Lamps work in existing light fixtures	Lamps work inside or outside	Less risk of breakage
